He kept the matter to himself and told no one of his great good fortune, but quietly sent his coupon forward for collection by Wells, Fargo & Co., and in less than ten days he had his money counted out to him over their counter in bright \$20 pieces.—Stockton (Cal.) Independent, Dec. 15th.

### The Play To-night

"Around the World in Eighty Days" is the wild vagaries of an enthusiast, brimful of the most intense imagination, regardless of time, place or action, but all blended together like a fairy enchantment, how here, now there, now everywhere. The whole piece is a conception of the renowned Kiralfy's, with the help of Gustave Dore in the magnificent scenery. The company consists of forty people, the costumes are superb and costly, and all the appointments go to make it one of the grandest spectacular dramas ever placed upon the stage. Such is the opinion of the Norfolk Virginian. At opera house to-night. Reserved seat tickets at Taylor's.

### "The Sweet Singer."

Karl Gardner, the sweet singer, will appear at the opera house Monday night in his new comedy entitled "Fatherland." The play is said to represent the true home life of Germany, with its joys, games and pastimes and fireside pictures. Two scenes especially are brought prominently forward, a spinstube, or spinning bee, and an original saengerfest, in which well-known singing societies participate, assisted by a double Tyrolean quartette. Mr. Gardner assumes the role of Hermann, a Tyrolean guide, and wears the identical dress that brave personage possessed when he received the medal for his bravery during the recent floods in that country. The box sheet at Taylor's points to a large audience.

### The Turnpike War at Paris Ended.

The Paris Record says: "Colonel W. W. Baldwin, the principal owner of the Maysville and Lexington Turnpike Road, lately shipped up from Maysville, and set up, a toll-house inside of the Hume and Bethlehem turnpikes and about two-thirds of a mile from the city limits, so as to catch and make all travel off those roads pay toll on the part of his road from said roads to Paris. This second gate is only about 200 yards from the old gate, which was towards Lexington, and which gate the Colonel runs also." The people thought it a violation of his charter to put in the new gate, and made a big kick about it. They rode around it, and considerable trouble followed their evasion of the toll. But, the Record announced Thursday that an amicable adjustment had been made, and that the Colonel orders the new gate discontinued.

### THE PUBLIC SCHOOLS.

Notes and Comments by County Superintendent Galbraith for Year 1889-90.

#### NO. 12—WEST LIBERTY.

Pupils on roll, 65; present, 42. The trustees are David Dye, Ben Hawkins and Henry Craycraft.

This school is taught by Miss Ella Galbreath, a trained teacher from the National Normal, who brings to her work a familiar acquaintance with the most approved methods of instruction. Her classes fully demonstrated the value of the systematic training she had given them. In fact, the school was a veritable bee hive—so busy was each pupil. Her arithmetic class acquitted themselves with unusual credit. The written work examined shows a steady and substantial improvement since last year, and Miss Galbreath reports favorable results from the use of the register and monthly reports.

In connection with the pleasant picture of this school, I regret to say that the fencing is broken down, throwing the school house out to the commons. I hope that the trustees will attend to this matter.

#### NO. 15—PEED'S.

Pupils on roll, 37; present, 30. The trustees are James Dye, T. B. Robinson and John Conley.

This school is taught by R. H. Dodson, an experienced and successful teacher. I found system in all of his work and the school in good working condition. I would like to examine its work at length, but must content myself with a few of the special features. The first that I wish to mention is the motto on the board, with the motto or quotation he wishes to impress. The picture may be put on at first, then the motto. These are left several days for the thought of the pupil before he gives them the lecture and lesson he wishes to draw. Then this being delivered the motto is left a day or two longer. Any teacher who will try this plan will catch the interest of his pupils. Another good thing used by Mr. Dodson was the query box. This always gives interest to school work, and sharpens the wit and wisdom of the pupils. His exercises in grammar and geography were interesting, especially that in outline map drawing. We found an interesting school, and the district deserves it, for it is the first public term in one of the best country school houses to be found in the county. The room is comfortable in all of its appointments and furnished with the very best patent desks. For this, all praise is due the trustees. The teacher says that they are the best trustees, the most attentive and helpful that can be found in Mason County, and in saying this he makes special mention of Mr. Dye. I am rejoiced to see the excellent results that the new house and furniture have brought to this district.
